CLA offers high standard teaching material in three areas for health education!

With their range of selected training charts, particularly in the most practical sizes for class lessons (84 x 195 cm and 84 x 119 cm), and the series of overhead foils and slides CLA offers valuable basic material for teaching theory. Both the wall charts and the Working Transparencies D1 have been developed by the "Federal German Central Office for Health Education, Cologne".

CLA offers the complete **range of SOMSO anatomical models**.

These models have been developed according to strict scientific criteria in co-operation with leading scientists. Specialists fully appreciate these robust models, their accuracy and their aesthetic qualities. Without exception these models are individually handmade by craftsmen in Sonneberg and Coburg.

The range of **nursing dolls and medical phantoms** have all been developed by CLA. The high technical standard attained by these models, is a result of decades of experience and intensive dialogue with doctors and teachers, and is recognised throughout the world. Both the nursing dolls and medical phantoms meet a wide range of teaching needs. Without exception these products are individually handmade by craftsmen in Coburg.

CLA® Media and teaching aids

Teaching Charts

These charts are useful in general teaching in front of a class and allow prolonged viewing when necessary.

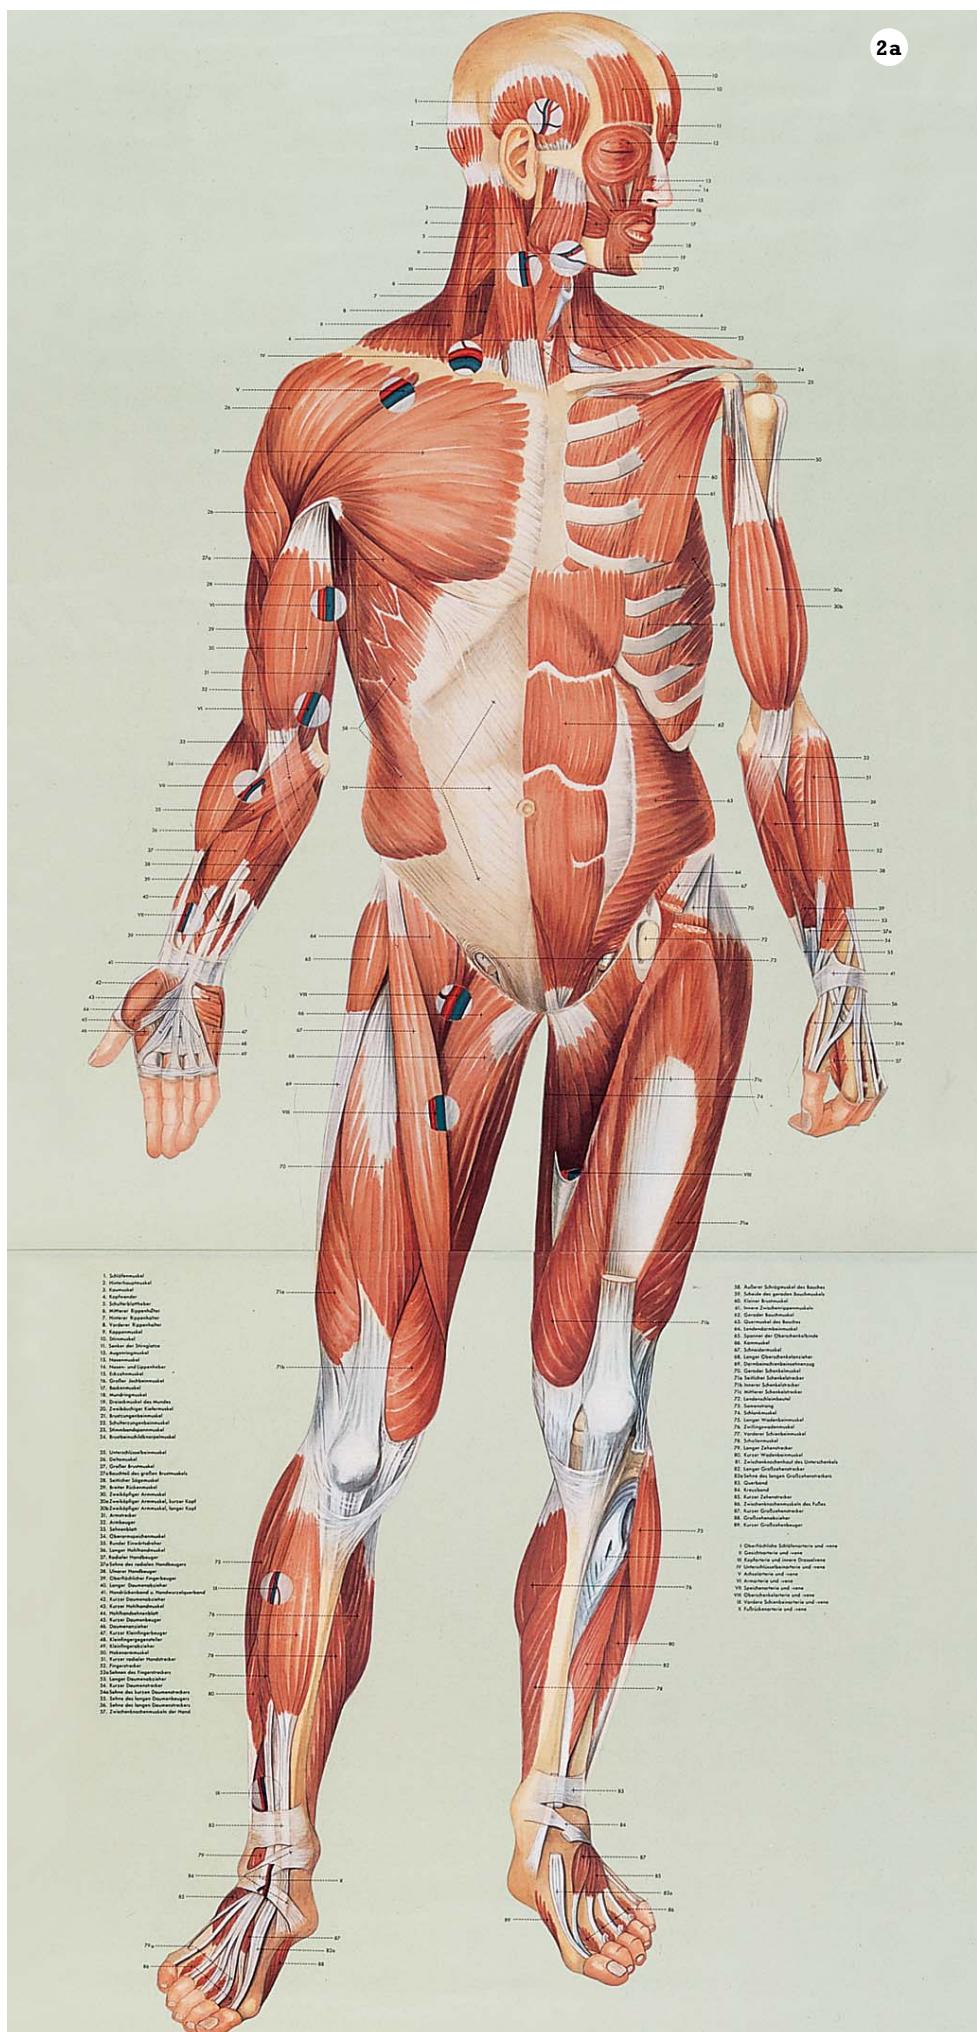

Compiled and published by the Federal German Central Office for Health Education, Cologne

A detailed explanatory text accompanies every teaching chart. This text first of all gives the anatomical and physiological data. It is accompanied by several pamphlets containing instructions and suggestions for experiments in order to make it easier for the teacher to select and present the material.

The charts marked with * are no longer mounted on linen but supplied on printed »Pretex« foil. This unique material is more durable, ensures brilliant colour reproduction and can also be written on with a water based marker. The other charts will also be produced on »Pretex« when re-printed.

Autonomic Nervous System
(84 x 119 cm)

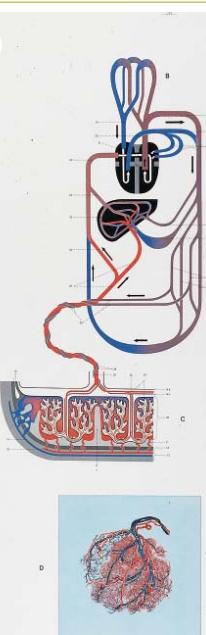

Experience has shown that discussion of the autonomic nervous system is among the most difficult chapters in the teaching of anthropology. Chart No. 27 is intended to facilitate the treatment of this subject. First of all, it illustrates the extremely fine innervation of the intestines and shows nerve tissues. A panel illustrates schematically how and from where the individual organs are innervated. In this chart, the sympathetic and parasympathetic systems stand out in colour. A schematic diagram showing the link between the autonomic and central nervous systems is provided in another panel.

Teacher's accompanying text with illustration as folding sheet

D 1

Working Transparencies

"Structure and Function of the Human Body" D 1

The transparency is becoming more and more important as a teaching tool in our schools today. It is simple to use in conjunction with an overhead projector and offers even those pupils sitting farthest away a good quality picture.

With the publication of the D 1 "Construction and function of the human body" transparency folder by the "Federal German Central Office for Health Education", CLA makes a further contribution to teaching material for human biology lessons in intermediate, secondary modern, vocational and grammar schools and training institutes for auxiliary medical personnel.

The folder comprises 46 work units which are arranged in a file in such a manner that they can quickly be taken out. Each work unit includes a black and white work transparency, the teacher's accompanying text with illustration as folded sheet and the model for the drawing sheets. The "Federal German Central Office for Health Education" has no objection to schools duplicating these drawing sheets for direct use during lessons.

Each transparency is immediately ready for use in a transparent sleeve. The teacher can write or draw with water soluble markers on the transparency as well as on the protective sleeve.

The use of transparencies together with the drawing sheets makes it possible to coordinate instruction at the front of the class with the independent work of the pupils. The blank drawing

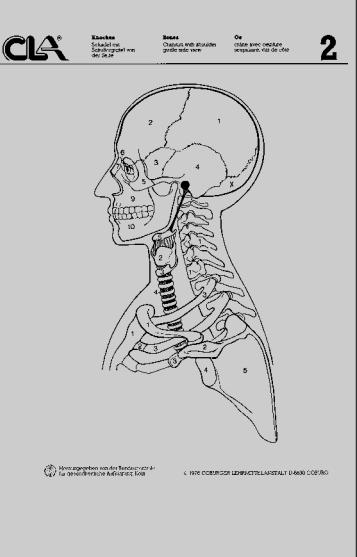

sheets are also suitable for controlling achievements.

Contents of 46 Working Units Consisting of:
Foil
a Lecturer's Sheet taking the Form of Folding Sheet with Text
b Drawing Sheet

Working Unit:

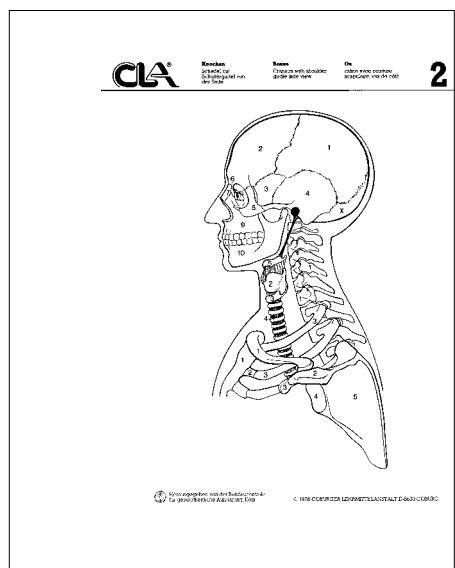

Bones:

1. Cranium with shoulder girdle front view
2. Cranium with shoulder girdle side view
3. Thorax and pelvis front view
4. Thorax and pelvis rear view
5. Arm with shoulder girdle front and rear view
6. Hand top and side view
7. Leg front and rear view

Transparency

Model for the drawing set

8. Foot top and side view
9. Skeleton front view
10. Skeleton side view
11. Skeleton rear view

Muscles:

12. Arm
13. Leg
14. Front view
15. Rear view
- Function of bones, joints and muscles:**
16. Action of flexors and extensors
17. Diaphragm and thorax position during inhalation and exhalation, side and front view
18. Foot inside view, with arch and footprint for normal foot, flat foot and hollow foot
19. Normal foot inside, outside and underneath view with load and relief triangles
- Internal organs:**
20. Position of internal organs front view
21. Position of internal organs rear view

- 22. Heart with vessel dispositions for lung and body circulation (semi-diagrammatic)
- 23. Heart with vessel dispositions for lung and body circulation (diagrammatic)
- 24. Trachea and lungs with diagrammatic view of heart
- 25. Digestive tract
- 26. Villi, cross sectional and plan views
- 27. Kidney, ureter, bladder with afferent and efferent vessels
- 28. Bowman's capsule with uriniferous tubule leading from it

Function of internal organs:

- 29. Effect of ferment on nutrient
- 30. Segregation of nutrient by ferment

Function of circulation:

- 31. Diagram of blood circulation and respiration

Nervous system:

- 32. Motoric nervous system
- 33. Vegetative nervous system

Function of nervous system:

- 34. Involuntary reflex
- 35. Voluntary reflex

Organ of Sense:

- 36. Eye in cross section
- 37. Ear in cross section
- 38. Tongue
- 39. Skin

Sexual organs:

- 40. Female pelvic organs side view
- 41. Male pelvic organs side view

Function of sexual organs:

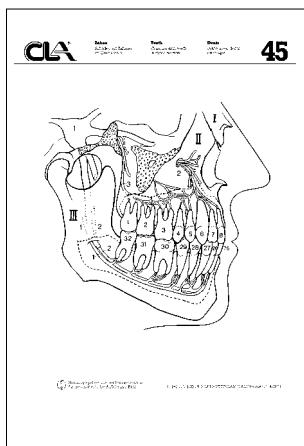

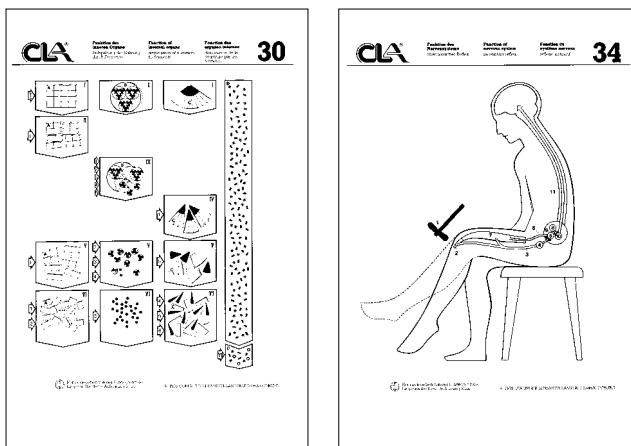

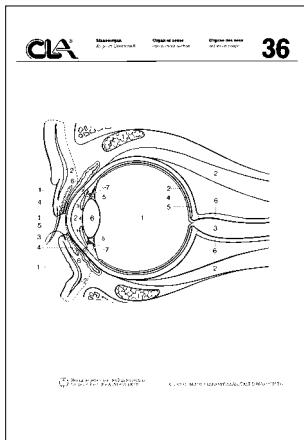

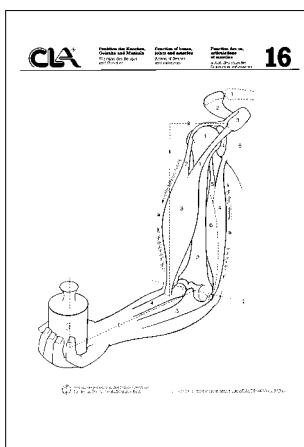

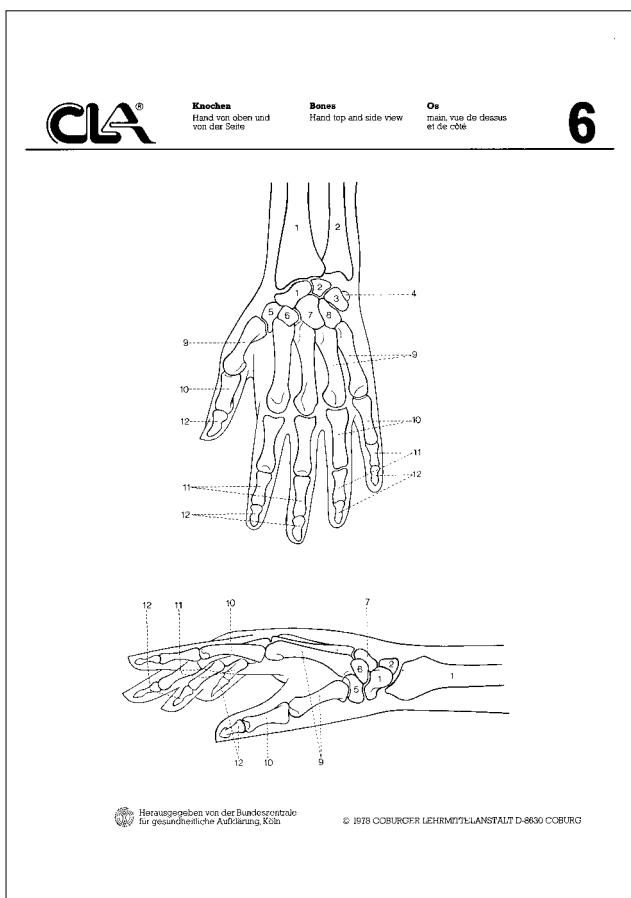

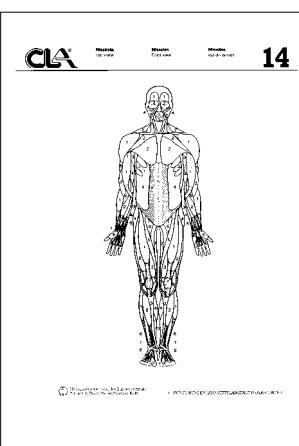

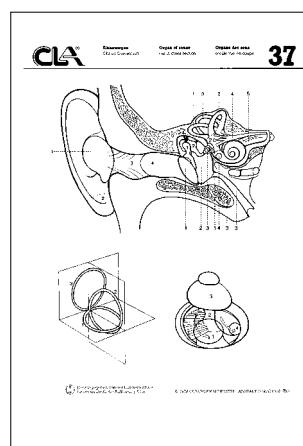

- 42. 1st month of pregnancy
- 43. 9th month of pregnancy

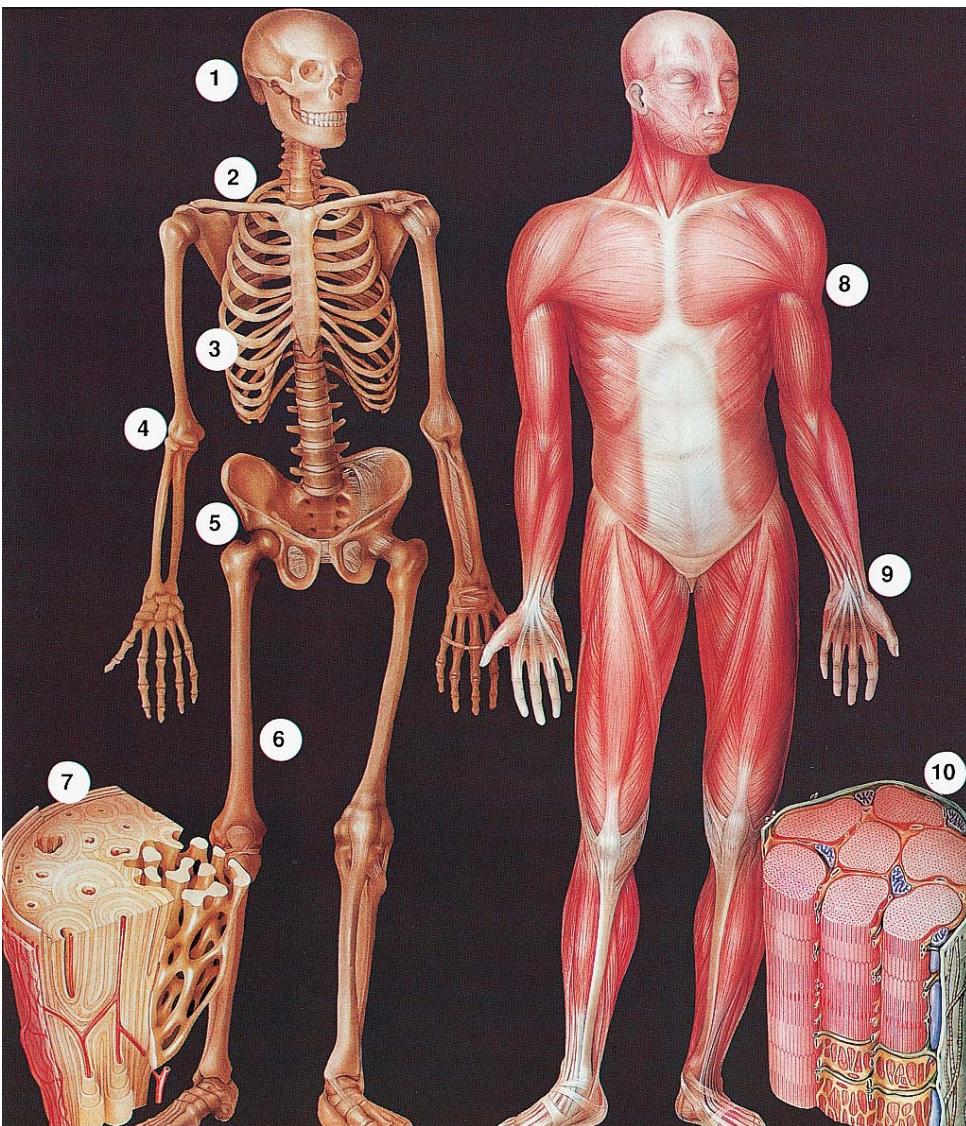

Skin:

- 44. Diagrammatic cross section through the skin (organ of sense skin)

Teeth:

- 45. Cranium with teeth in cross section
- 46. Molar and incisor in cross section

**Transparency Atlas
"Anatomy and Health
Education"**
Scharf/Jungbauer

**80 colour transparencies
for daylight projection
with information for the
teacher and worksheets
for classroom instruction
in 2 volumes**

10

**The following materials
are available for use in
classroom instruction:**

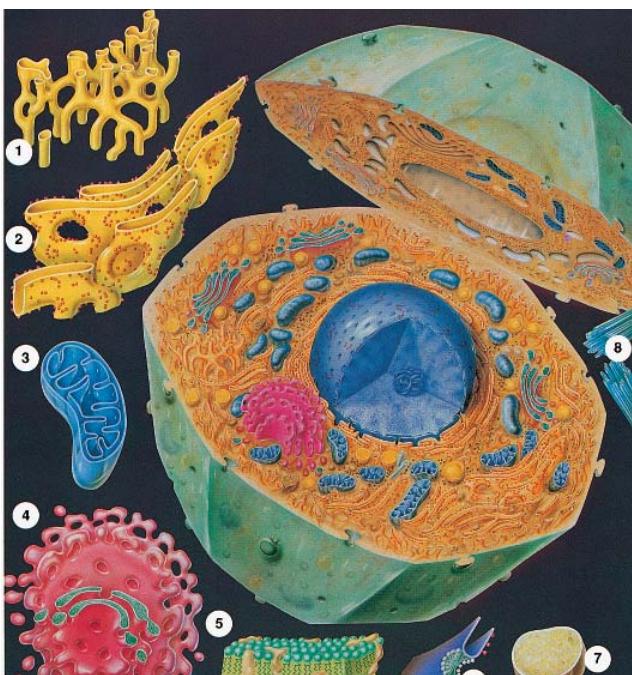

- 80 colour transparencies for daylight projection (21 cm x 30 cm) with detailed illustrations of organs.
- Also included are worksheets which can be copied for the students and
- information for the teacher with answers to the worksheets, as well as explanations of the individual topics and suggestions for lesson plans.

The Transparency Atlas
"Menschenkunde und
Gesundheitserziehung"
("Anatomy and Health
Education") according to
Scharf/Jungbauer is available
only in German.

Medical Slide Series

The Human Body

All these slides are in colour and consist of micro-, macro- and clinical photographs. Every illustration is accompanied by an educational and scientifically correct text.

Anatomy, 9 Series 33 Colour Slides with Text

31001

Skull

1. Cranium, front and side view
2. Base of skull
3. Viscerocranum bones (separate)

31002

Vertebral Column

1. Atlas - rotary joint
2. Thoracic vertebra
3. Lumbar vertebra

31003

Extremities

1. Femur, longitudinal and cross-sections
2. Femur, epiphysis
3. Knee joint
4. Structure of knee (knee joint)
5. Skeleton of arm, ulna - radius
6. Skeleton of normal foot
7. Skeleton of flat foot
8. Hip-bone

31004

Brain

1. Brain and spinal column, front
2. Sagittal section with skull
3. Ventricle

31005

Endocrine Glands

1. Position of glands (schema)

31006

Chest Cavity

1. Position of thoracic organs
2. Heart conduction system
3. Lungs (embedded specimen)
4. Lungs (embedded specimen, section)
5. Lungs, vascular injection
6. Heart with injected vessels, ventral
7. Heart with injected vessels, dorsal

31007

Abdominal Cavity

1. Stomach vascular injection
2. Stomach, vascular injection (section)
3. Intestine vascular injection
4. Liver, vascular injection (micro)
5. Liver with impregnated bileduct (micro)
6. Liver (embedded specimen)

31008

Urinary Organs

1. Kidney, injected

31009

Ventral Hernias

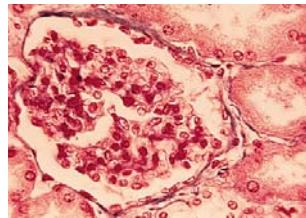

1. Schema

General Histology, 8 Series, 52 Colour Slides with Text

The Cell

1. Schema
2. Cell of ovum
3. Cell of semen
4. Division of cell, prophase
5. Division of cell, metaphase
6. Division of cell, anaphase
7. Division of cell, telophase
8. Isolated cylindrical cell
9. Isolated fibroblast
10. Intercellular bridges
11. Phagocytosis I
12. Phagocytosis II

31051 (8)

13. Amoeboid movement

31051

Epithelial Tissue

1. Keratinizing tessellated epithelium
2. Non-keratinizing tessellated epithelium
3. Cubic epithelial
4. Cylindrical epithelial, single-layered
5. Cylindrical epithelial, single-layered with cilia
6. Multi-layered cylindrical epithelial
7. Transitional epithelium
8. Endothelium

31052

Glandular Epithelium

1. Caliciform cells
2. Sebaceous gland
3. Scent glands
4. Zymogen granules in pancreas

31053

Connective Tissue

1. Mesenchyme
2. Mucous tissue
3. Reticular tissue
4. Structure of reticular fibre (liver)
5. Fibrillary loose connective tissue
6. Firm connective tissue
7. Retiform connective tissue
8. Adipose tissue

31054

Cartilage Tissue

1. Hyaline cartilage
2. Elastic cartilage
3. Connective tissue cartilage

31055

Bone Tissue

1. Bone cells
2. Compact bones
3. Polarized section of bone
4. Cancellous bones
5. Osteoclasts
6. Osteoblasts
7. Bone growth

31056

Muscular Tissue

1. Plain muscular fibres
2. Transversally striated muscular fibres
3. The cardiac muscle

31057

Nervous Tissue

1. Ganglion cell
2. Nerve cell with apophysis
3. Glial and ganglion cells
4. Motor end-plates
5. Pacinian corpuscles
6. Meissner's corpuscles

Special Histology 15 Series, 57 Colour Slides with Text

31100

The Vascular System

1. Capillaries
2. Elastic arteries
3. Muscular arteries
4. Lymphatic vessel with valve, cross section

31101

The Lymphatic Organs

- The Lymphatic Organs
1. Lymphatic nodules
 2. Lymph nodes; schema
 3. Lymph nodes: reticulum and lining cells
 4. Spleen (schema)
 5. Hassal's corpuscles

31102

The Endocrine Organs

1. Thyroid gland
2. Interalveolar cell-islet
3. Pituitary gland: anterior lobe cells
4. Ovarium, follicle
5. Ovarium, luteum bodies

31103

The Salivary Glands

1. Serous acini
2. Mucous acini
3. Mixed acini
4. Excretory duct
5. Intercalated duct with secretion tube

31104

The Oral Cavity

1. Incisors, longitudinal section
2. Filiform papillae
3. Fungiform papillae
4. Vallate papillae
5. Taste bud

31105

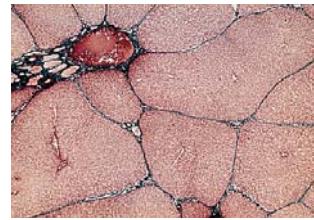

The Gastro-Intestinal Canal

1. Cardia
2. Gastric fundus with adenomorphous and delomorphous cells
3. Pyloric glands
4. Intestinal villus
5. Kerckring's folds

31106

The Liver

1. Liver, schema
2. Liver lobules (pig's liver)

31106 (2)

31107

Respiratory Organs

1. Larynx, longitudinal
2. Lung, elastic fibres
3. Lung, covering epithelium

31108

The Kidney

1. Kidney (top view)
2. Cortex: glomerulus - main section - junctional section
3. Medulla: loops and collecting ducts

31109

The Uterus

1. Proliferation phase
2. Secretion phase
3. Placenta

31110 (2)

31110

The Nervous System

1. Spinal cord, cross-section
2. Spinal cord, cross-section finished in silver
3. Spinal cord, anterior horn finished in silver
4. Cerebellum, coated in silver
5. Cerebrum, coated in silver

31111

The Eye

1. Eye, complete
2. Anterior part of eyeball
3. Beginning of optic nerve
4. Retina

31112

The Ear

1. Cochlea
2. Duct of cochlea, cross-section
3. Spiral organ
4. Equilibrium organ

31113

The Skin

1. Skin with injected blood vessels
2. Scalp, longitudinal section, injected
3. Scalp, cross-section

31114

The Breast

1. Lactating mammary gland

**Haematology 12 Series,
59 Colour Slides with Text**

31150

Blood Composition

1. General composition (macro)
2. Composition of the blood (schematic form)
3. Development of the blood cells
4. Eosinophil granulocyte
5. Basophil granulocyte
6. Neutrophil granulocytes
7. Lymphocytes
8. Blood monocytes
9. Lymphatic monocytes
10. Composition of the blood plasma (schematic form)

31151

Main Functions of the Blood

1. Circulation of matter (schematic form)
2. Protective function (schematic form)
3. Regulating the water balance (schematic form)

31152 (1)

31152

Blood Groups

1. Experimental blood group determination (macro)
2. Effect of blood groups (macro)
3. Agglutination and its absence (micro)

31153

Red Blood Corpuscles

1. Normal red blood corpuscles and thrombocytes
2. Reticulocytes (proerythrocytes)
3. Karyorrhexis patterns
4. Development and maturation, core classification (schema)
5. Hemolysis, reduction of hemoglobin (schema)

31154

Changes in the Volume of the Blood

1. Schema

31155

Aplastic Anaemia

1. Blood film
2. Bone marrow, fat marrow (micro)
3. Bone marrow fibrosis (section)
4. Carcinosis of the bone marrow (macro)
5. Carcinosis of the bone marrow (micro)
6. Necrotic tonsillitis (histological)

31156

Megaloblastic Anaemia

1. Blood smear
2. Bone marrow smear
3. Hunter's glossitis and skin colouring
4. Regeneration after Vitamin B 12 therapy (schema)

31157

Iron Deficiency Anaemia

1. Blood smear
2. Bone marrow smear
3. Anaemic skin colouring
4. Iron resorption

31158

Haemolytic Anaemia

1. Schematic diagram
2. Blood smear
3. Bone marrow smear
4. Colour of serum with hyperhaemolysis

31159

Foetal Erythroblastosis

1. Enlargement of the liver and spleen
2. Bilirubin infarct in the kidney (micro)
3. Kernicterus in the brain
4. Haemopoiesis foci in the liver (micro)

31160

Leukosis and Glandular Fever

1. Myelocytic leukosis (blood)
2. Lymphocytic leukosis (blood)
3. Monocytic leukosis (blood)
4. Infantile leukosis (blood)
5. Paramyeloblastosis with Auer's bodies (blood)
6. Infectious mononucleosis (blood smear)
7. Infectious mononucleosis (clinical photograph)
8. Senile spread (schema)

31161

Bleeding and Clotting

1. Thrombopoiesis (schematic form)
2. Blood clotting (schematic form)
3. Haemorrhagic purpura
4. Haemophilia, knee joint
5. Haemophilia, injection puncture
6. Osler's disease (macro)
7. Cholemic bleeding

Physiology

8 Series, 42 Colour Slides with Text

31200

Circulation

1. Heart: systole-diastole
2. Heart: valvular action
3. Valvular defect: stenosis
4. Valvular defect: insufficiency
5. Schematic diagram of the circulatory system
6. Venous thrombosis of the leg - pulmonary embolism
7. Thrombosis of the heart - organic embolism
8. Venous thrombosis of the leg - paradoxical embolism
9. Functioning of the heart
10. Portal circulation
11. Lymph path

31201

Respiratory Organs

1. Swallowing - breathing
2. Gaseous interchange

31202

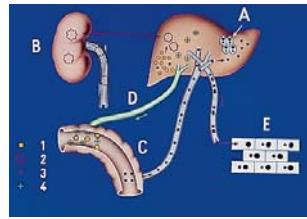

Digestion

1. Main nutrients
2. Oral cavity - stomach
3. Intestine
4. Digestive juices in the intestine
5. Combination of digestive juices
6. Resorption in the intestine
7. Path of the resorbed food components
8. Intermediary metabolism (schematic form)
9. The end products

31203

The Liver

1. Bile formation
2. Forms of jaundice

31203 (5)

3. The liver as a storage organ in sugar metabolism
4. Disturbance in sugar metabolism, Diabetes mellitus
5. The liver in protein and fat metabolism
6. Build-up of urea in the liver
7. Detoxination function of the liver

31204

Vitamins

1. Vitamin AB in schematic form
2. Vitamin CD in schematic form

31205

Internal Secretions

1. Regulation in schematic form

31206

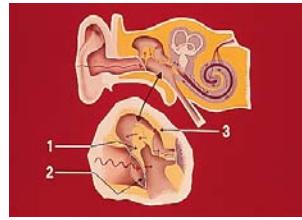

The Kidney

1. Function of the kidneys, schematic form
2. Glycosuria
3. Nephrosis
4. Nephrosclerosis
5. Glomerulonephritis

31207

The Nervous System

1. The reflex arc
2. Irritation and response
3. The autonomous nervous system
4. Vision
5. Hearing

**Reproduction and Development 6 Series,
42 Colour Slides with Text**

31250

Ovary and Maturation

1. Schematic diagram of development of the ovum
2. Ovary, cross-section
3. Primordial follicle
4. Secondary follicle
5. Vesicular ovaries follicle
6. Dizygotic follicle
7. Corpus luteum (micro)
8. Corpus luteum (macro)
9. Equation division
10. Reduction division
11. Uterus cycle (schematic form)

31251

Testicles and Formation of Spermatozooids

1. Testicle, cross-section
2. Maturation of the spermatozoid
3. Development of the spermatozoid
4. Spermatozooids

31252

Fertilization

1. Act of fertilization (schema form)
2. Penetration of the spermatozoid into the ovum
3. Maturation division

31253

Segmentation and Gastrulation

1. Dizygotic phase
2. 4-cell phase
3. 64-cell phase
4. Morula
5. Blastula
6. Gastrulation, schematic form
7. Gastrula
8. Implantation in the uterus

31254 (4)

31254

Foetal Envelopes and Cell Layers

1. Foetal envelopes, schematic form
2. The development phases, schematic form
3. Neural groove, cross-section
4. Neural tube, cross-section
5. Conversion of the mesoderm, schematic form

31255

Development of External Body Shape and Organs

1. Formation of external shape, schematic diagram
2. 14-day-old foetus (macro)
3. Dizygotic twins (macro)
4. 3-month-old foetus (macro)
5. Development of the bones
6. Embryonic heart
7. Embryonic small intestine
8. Embryonic lung
9. Development of the brain
10. Development of the eye
11. Embryonic kidney

31300

Irregularities in Development (Malformations)

- 5 colour slides with text
- 1. Leg aplasia (sirenomelus)
- 2. Syndactyla (finger)
- 3. Hare lip
- 4. Cleft palate
- 5. Meningomyelocystocele

31301

Circulatory Disturbances

- 12 colour slides with text
- 1. Thrombosis in longitudinal section (macro)
- 2. Thrombosis in cross-section (macro)
- 3. Thrombosis, cross view (micro)
- 4. Massive pulmonary embolism (macro)
- 5. Hemorrhagic pulmonary infarct (macro)
- 6. Hemorrhagic pulmonary infarct (micro)
- 7. Anaemic spleen infarct (macro)
- 8. Anaemic spleen infarct (micro)
- 9. Tumour embolism, lung
- 10. Fat embolism, lung (micro)
- 11. Fat embolism, cerebral (micro)
- 12. Fat embolism, renal (micro)

31302

Inflammation and Restoration of the Tissue

- 8 colour slides with text
- 1. Fibrous pneumonia (micro)
- 2. Scab esophagitis (micro)
- 3. Cheesy pneumonia (micro)
- 4. Chronic pneumonia (micro)
- 5. Scar (macro)
- 6. Scar (micro)
- 7. Callus (macro)
- 8. Callus (micro)

31303

Tumours

- 9 colour slides with text
- 1. Fibroma (macro)
- 2. Fibroma (micro)
- 3. Myoma (macro)
- 4. Spindle cell sarcoma (micro)
- 5. Glioma (micro)
- 6. Ovarii adenoma (micro)
- 7. Adenocarcinoma (macro)
- 8. Carcinoma metastasis
- 9. Vascular carcinoma penetration

31305

Malformations

- 2 colour slides with text
- 1. Heart dividing wall defect
- 2. Open foramen, oval

31305 (2)

31306

Endocard

- 4 colour slides with text
- 1. Verrucous endocarditis (macro)
- 2. Ulcerative polypous endocarditis
- 3. Mitral stenosis, auricular dilatation, ball thrombus
- 4. Completed endocarditis of the aorta valve with torn off valve pocket

31307

Myocardium

- 5 colour slides with text
- 1. Cardiac hypertrophy and dilatation
- 2. Atherosclerosis, old anterior wall infarct
- 3. Fresh cardiac infarct (micro), overview
- 4. Fresh cardiac infarct (micro), centre
- 5. Fresh cardiac infarct (micro), periphery zone

31308

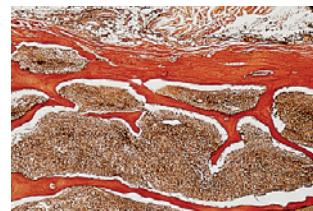

Pericardium

- 3 colour slides with text
- 1. Tuberculous pericarditis (macro)
- 2. Tuberculous pericarditis (micro)
- 3. Pericardial carcinosis

31309

Arteries

- 4 colour slides with text
- 1. Aneurysma (macro)
- 2. Artherosclerosis (macro)
- 3. Artheromatosis (micro)
- 4. Artherosclerosis (micro)

31310 (2)

31310

Blood

- 7 colour slides with text
- 1. Lymphatic leukemia - bone marrow smear
- 2. Lymphatic leukemia - bone marrow
- 3. Lymphatic leukemia - lymph node (macro)
- 4. Lymphatic leukemia - lymph node (micro)
- 5. Lymphatic leukemia - spleen (macro)
- 6. Lymphatic leukemia - spleen (micro)
- 7. Myeloid leukemia - enlargement of liver and spleen

31311

Bone Marrow

- 4 colour slides with text
- 1. Aplasia
- 2. Red bone marrow (macro)
- 3. Red bone marrow (micro)
- 4. Fat marrow

31312

Spleen

- 5 colour slides with text
- 1. Spleen rupture
- 2. Lymphogranulomatosis (macro)
- 3. Lymphogranulomatosis (micro)
- 4. Amyloidosis (macro)
- 5. Amyloidosis (micro)

31313

Lymph Nodes

- 4 colour slides with text
- 1. Lymph node tuberculosis
- 2. Lymphoma
- 3. Lymphosarcoma
- 4. Carcinoma metastasis

31315

Thyroid Gland

- 4 colour slides with text
- 1. Struma colloides (macro)
- 2. Struma colloides (micro)
- 3. Struma parenchymatosa - M. Basedow (macro)
- 4. Struma parenchymatosa - M. Basedow (micro)

31316

Parathyroid Gland

- 1 colour slide with text
- 1. Adenoma of the parathyroid gland

31317

Adrenal Gland

- 2 colour slides with text
- 1. Morbus addisonii - skin pigmentation
- 2. Morbus addisonii - adrenal tuberculosis

31318

Stomach

- 3 colour slides with text
- 1. Gastric ulcer
- 2. Round gastric ulcer with perforation
- 3. Stomachal carcinoma

31319

Intestines

- 5 colour slides with text
- 1. Meckel's diverticulum
- 2. Polyposis intestinalis
- 3. Duodenal ulcer
- 4. Tuberculosis of the small intestine
- 5. Typhus ulcer

31320

Liver

- 8 colour slides with text
- 1. Fatty liver (macro)
- 2. Fatty liver (micro)
- 3. Atrophic liver cirrhosis (macro)
- 4. Atrophic liver cirrhosis (micro)
- 5. Primary liver carcinoma (macro)
- 6. Primary liver carcinoma (micro)
- 7. Liver metastasis with rectum melanoma
- 8. Stone gallbladder

31321 (1)

31321

Larynx and Trachea

- 5 colour slides with text
- 1. Glottis edema
- 2. Larynx tuberculosis
- 3. Larynx carcinoma
- 4. Foreign body in larynx
- 5. Foreign body in bronchus

31322 (14)

31322

Lungs

- 15 colour slides with text
- 1. Bronchiectasis
- 2. Pulmonary emphysema (macro)
- 3. Pulmonary emphysema (micro)
- 4. Pneumoconiosis (macro)
- 5. Pneumoconiosis (micro)
- 6. Silicosiderosis
- 7. Lobe pneumonia
- 8. Cheesy pneumonia, cavern
- 9. Pulmonary carcinoma (macro)
- 10. Pulmonary carcinoma (micro)
- 11. Tuberculous primary complex
- 12. Exudative tuberculosis
- 13. Massive distribution of tuberculosis of the lung
- 14. Cavernous tuberculosis of the lung
- 15. Miliary tuberculosis of the lung

31323

Urinary organs

- 14 colour slides with text
- 1. Horseshoe kidney
- 2. Hypoplasia of one kidney
- 3. Cystic kidney
- 4. Acute glomerulonephritis, facial edema
- 5. Acute glomerulonephritis (macro)
- 6. Subacute glomerulonephritis (micro)
- 7. Subchronic glomerulonephritis (micro)
- 8. Chronic glomerulonephritis (micro)
- 9. Granular atrophy
- 10. Amyloid nephrosis
- 11. Nephrosis edema
- 12. Nephrosis - healing
- 13. Hydronephrosis
- 14. Kidney stones

31324

Fallopian Tube

- 2 colour slides with text
- 1. Tubal pregnancy
- 2. Burst tubal pregnancy

31325

Uterus

- 3 colour slides with text
- 1. Pregnancy with uterus myomatosis
- 2. Uterus carcinoma (macro)
- 3. Uteruscarcinom (micro)

31326

Mammary Gland

- 1 colour slide with text
- 1. Mamma carcinoma (macro)

31327

Locomotor System

- 5 colour slides with text
- 1. Abscessing osteomyelitis in tibia head
- 2. Chronic osteomyelitis
- 3. Ostitis fibrosa cystica generalisata
- 4. Bone fracture
- 5. Carcinoma metastasis

31328

Skin

- 4 colour slides with text
- 1. Urticaria
- 2. Ichthyosis
- 3. Lupus vulgaris
- 4. Patchy hairy nevus

31329

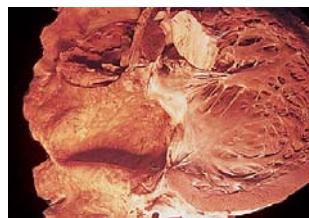

Nervous System

- 14 colour slides with text
- 1. Hydrocephalus
- 2. Hydrocephalus, internal
- 3. Pneumococcal meningitis
- 4. Tuberculous meningitis (macro)
- 5. Tuberculous meningitis (micro)
- 6. Cerebral abscess
- 7. Cerebral abscess with distinct diaphragm formation
- 8. Ruptured cerebral base aneurysma
- 9. Extensive haemorrhage in the inner capsule
- 10. Poliomyelitis (micro)
- 11. Poliomyelitis - respiration paralysis and atrophy
- 12. Poliomyelitis - paralysis of the extremities
- 13. Poliomyelitis - paralysis of the lower extremities
- 14. Extensive glioma with haemorrhage

31330

Infectious Diseases

- 12 colour slides with text
- 1. Tuberculous lymph node swelling
- 2. Lymph node tuberculosis (micro)
- 3. Langhans' giant cells
- 4. Miliary tuberculosis
- 5. Primary effect on the vulva
- 6. Mesaortitis luisa

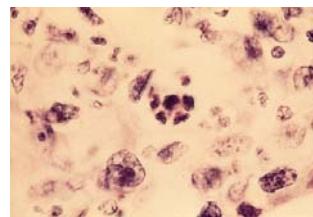

31330 (6)

- 7. Congenital syphilis of the liver (micro) - spirochaeta
- 8. Tetanus
- 9. Herpes zoster
- 10. Scarlet fever - tongue
- 11. Measles - exanthema
- 12. German measles - exanthema

31333

Benign Tumours

- 14 colour slides with text
- 1. The most common myomas of the uterus (schematic diagram)
- 2. Uterus myoma (macro)
- 3. Papillary ovarian cystoma (macro)
- 4. Teratoma on the area of the coccyx (operation photograph)
- 5. Benign cystic tumour of the kidney in new born baby, closed (operation photograph)
- 6. Benign cystic tumour of the kidney in new born baby, opened up (operation photograph)
- 7. Fibro-adenoma of the mammary gland (micro)
- 8. Parathyroid gland tumour
- 9. Chondroma of the rib (micro)
- 10. Hemangioma of the conjunctiva (clinical photograph)
- 11. Cavernous angioma (micro)
- 12. Patchy nevus on the head (clinical photograph)
- 13. Nevus on the cheek (clinical photograph)
- 14. Pigmented papilloma (micro)

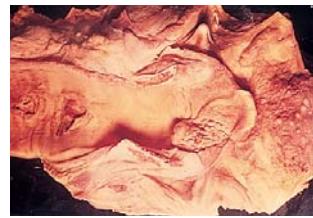

31334 (2)

31334

Malignant Tumours: Breast and Womb

- 7 colour slides with text
- 1. Cancer of the breast (schematic diagram)
- 2. Cancer cell, carcinoma simplex (micro)
- 3. Cancer cell, basal cell cancer (micro)
- 4. Cancer of the womb, carcinoma servici uteri (micro)
- 5. Mammary gland carcinoma, carcinoma simplex (micro)
- 6. Mammary gland carcinoma with lymph node metastasis (macro)

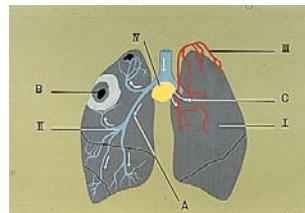

31335 (1)

- 7. Mammary gland carcinoma (operation photograph)

31335

Malignant Tumours: Respiratory and Digestive Organs

- 7 colour slides with text
- 1. Cancer of the larynx (macro)
- 2. Lung cancer (macro)
- 3. Cancer of the tongue (macro)
- 4. Cancer of the trachea (macro)
- 5. Tumour invested stomach cancer (macro)
- 6. Diffuse growing cancer of the stomach (macro)
- 7. Anal cancer (clinical photograph)

31339 (2)

31338

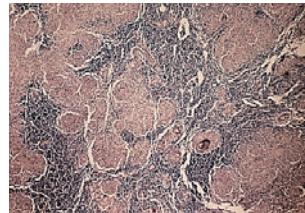

Malignant Tumours: Brain

- 4 colour slides with text
- 1. Glioma in the temple lobe (macro)
- 2. Glioma in the temple lobe (micro)
- 3. Glioma with extensive haemorrhage (macro)
- 4. Angiosarcoma in the small angle of the bridge (macro)

31339

Tuberculosis

- 27 colour slides with text
- 1. Tubercle bacillus (mycobacterium tuberculosis)
- 2. Tuberculosis of the lung (schematic diagram)
- 3. Primary complex (macro)
- 4. Encapsulated tuberculosis focus (macro)
- 5. Exudative pulmonary tuberculosis (macro)
- 6. Cheesy pneumonia (micro)
- 7. Bronchiogenous spread in the lung (schematic diagram)
- 8. Lymph node swelling on the neck (clinical photograph)
- 9. Lymph node swelling in the armpit (clinical photograph)
- 10. Lymph node tuberculosis (macro)
- 11. Lymph node tuberculosis (micro)
- 12. Large knot spleen tuberculosis (macro)
- 13. Kidney tuberculosis (macro)
- 14. Caseating double-sided kidney tuberculosis
- 15. Small intestine tuberculosis

31339 (22)

- 16. Organ tuberculosis - spreading through the blood path (schematic diagram)
- 17. Miliary tuberculosis (micro - 40:1)
- 18. Tuberculous neck gland (micro)
- 19. Miliary tuberculosis (micro - 12:1)
- 20. Miliary tuberculosis (macro)
- 21. Tuberculous meningitis (clinical photograph)
- 22. Tuberculous meningitis (micro)

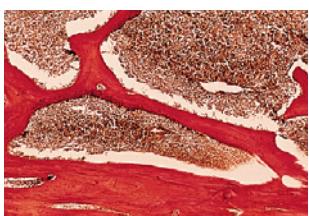

31340 (19)

23. Submiliary tuberculosis of the liver (micro)
24. Miliary tuberculosis in the intestine (micro)
25. Skin tuberculosis (clinical photograph)
26. Lupus vulgaris in the face (clinical photograph)
27. Clubbed fingers (clinical photograph)

31340 Leukemia

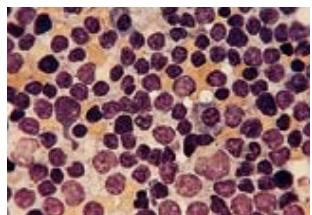

- 29 colour slides with text
1. Enlargement of liver and spleen (clinical photograph)
 2. Enlargement of spleen (clinical photograph)
 3. Enlargement of lymph node (macro)
 4. Enlargement of spleen, surface (macro)
 5. Enlargement of spleen, cutting area (macro)
 6. Lymphatic leukemic infiltration in the spleen (micro - 38:1)
 7. Lymphatic leukemic infiltration in the spleen (micro - 130:1)
 8. Liver with focal leukemic infiltration (macro)
 9. Bone marrow smear (micro - 40:1)
 10. Bone marrow smear (micro - 240:1)
 11. Liver, lymphatic leukemic infiltration (micro - 60:1)
 12. Liver, lymphatic leukemic infiltration (micro - 160:1)
 13. Lymphatic leukemic infiltration in the abdominal skin (micro - 12:1)
 14. Lymphatic leukemic infiltration in the abdominal skin (micro - 130:1)
 15. Lymphoid ring with lymphatic leukemia (macro)
 16. Lymphatic leukemic infiltration in the tonsils (micro - 38:1)
 17. Lymphatic leukemic infiltration in the tonsils (micro - 130:1)
 18. Lymphatic leukemic infiltration in the gums near the surface

31340 (27)

19. Leukemic infiltration in the kidney (macro)
20. Lymphatic leukemic infiltration in the kidney (micro - 15:1)
21. Lymphatic leukemic infiltration in the kidney (micro - 38:1)

22. Lymphatic leukemic infiltration in the kidney (micro - 160:1)
23. Lymphatic leukemic infiltration in the musculature (micro - 130:1)
24. Lymphatic leukemic infiltration in the myocardium (micro - 130:1)
25. Lymphatic leukemic infiltration in the lung (micro - 38:1)
26. Enlargement of the lymph glands (clinical photograph)
27. Bone marrow with lymphatic leukemia (micro - 30:1)
28. Bone marrow with lymphatic leukemia (micro - 160:1)
29. Skin bleeding (clinical photograph)

31340 (10)

Dermatology

34001

Vessels and Haemorrhage of the Skin

- 9 colour slides with text
1. Varices
 2. Teleangiectasis
 3. Neves teleangiectaticus
 4. Neves anaemicus
 5. Seniles angioma
 6. Planes hemangioma
 7. Irradiated hemangioma
 8. Tuberous hemangioma
 9. Purpura senilis

34002

Eczema, Erythema, Exanthema

- 9 colour slides with text
1. Acute contact eczema
 2. Cheilitis allergica
 3. Chronic contact eczema
 4. Bacterial eczema
 5. Seborrhoeicum eczema
 6. Nummular seborrhoeicum eczema
 7. Psoriasis
 8. Psoriatic arthropathy
 9. Crusta lactea

34003

Skin Diseases caused by Germs

- 8 colour slides with text
1. Superficial trichophytosis
 2. Deep trichophytosis
 3. Pyoderma
 4. Carbuncle
 5. Bullous pyoderma
 6. Herpes simplex
 7. Zoster scars
 8. Insect bites

34004

Cornification and Embedment

- 4 colour slides with text
1. Palmar hyperkeratosis
 2. Ichthyosis nitida
 3. Keratoma senile
 4. Verrucous pigmented nevus

34005

Skin Growths

- 11 colour slides with text
1. Seborrheic warts
 2. Vulgar wart
 3. Fibromatoid nevus
 4. Nevus papillomatous
 5. Koenen tumour
 6. Knuckle pads
 7. Keloid
 8. Basalioma
 9. Cancroid
 10. Morbus paget
 11. Malignant lymphoma

34006

Atrophies and Sclerosis

- 6 colour slides with text
1. Scar sclerosis
 2. White atrophy
 3. Dermatosclerosis
 4. Dupuytren's contracture
 5. Radiation callosities
 6. Cutis rhomboidalis

34007

Skin Appendages

- 10 colour slides with text
1. Nail mycosis
 2. Nail dystrophy
 3. Ungues hippocratici
 4. Trichomycosis
 5. Acne, comedo
 6. Miliary
 7. Sebaceous gland nevus
 8. Sweat gland abscess
 9. Sweat purpura
 10. Mamilla accessorius

34008

Mucosa Changes

- 6 colour slides with text
1. Leukoplakia
 2. Stomatitis aphthosa
 3. Trichoglossia
 4. Mucous cyst
 5. Mucosa hemangioma
 6. Gingivitis

34009

Syndromes, Reactions, etc

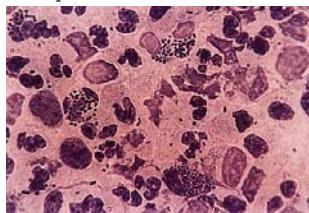

- 3 colour slides with text
1. Mycosis fungoides
 2. Second degree burn
 3. Adenoma sebaceum

Living External Causes of Disease (Parasites) 3 series, 33 colour slides with text

31451

Worms

1. Ova of taenia
lumbricoides and trichocephalus trichuriasis

31450 (3)

2. Ova of taenia saginata
3. Taenia saginata proglottis
4. Ascariasis of the liver (macro)
5. Pin-worm
6. Hook-worm
7. Trichinella spiralis
8. Strombylus vulg.
9. Calcified echinococci cysts in the cardiac muscle

31452 (2)

31452

Insects

1. Mosquito
2. Flea
3. Bedbug
4. Louse

SINCE 1876

**CLA offers the complete range
of SOMSO anatomical models.
The Zoology and Botany Catalogue
is also available on demand.**

Please note

Copying models, phantoms and nursing dolls is prohibited and infringement is subject to compensation for damages.

By closely co-operating with scientific institutes CLA endeavors to provide state-of-the-art models that conform to the latest scientific developments. The CLA nursing dolls, medical phantoms and majority of models are produced in durable plastic and are appropriately identified. In so far as a model's dimensions and weights are altered, such modifications are due to the latest technical and scientific developments.

All rights are reserved and protected by copyright, specifically for reprinting, duplication and translation. In addition any photo mechanical and digital reproduction even in extract form will be subject to express written approval.
