Relais temporisé avec détection de surtension / sous-tension

Digital measuring relay for the supervision of 2-, 3- and 4-leading nets on inadmissible about or undervoltages (earth fault) with phases result supervision (ANSI 27 and 59).With RS485 interface.

Caractéristiques techniques

Nominal voltage Vn: 100,110, 230, 400 V AC (Line-to-line)

Nominal frequency fN: 35 66 Hz

Auxiliary voltage VV: 36-520 V AC (f = 35-78 Hz) or 50-750 V DC/4 W
